PROFILE

Detail-oriented Web Developer with practical experience in building dynamic, user-focused web applications. Proficient in frontend technologies including HTML, CSS, JavaScript, and React, with a strong eye for responsive design and user experience. On the backend, skilled in Node.js, Express, and MySQL for developing RESTful APIs, managing authentication, and handling database operations. Able to work in group, independently and take ownership of projects from start to finish, while delivering efficient, scalable solutions that meet both user and business needs..

PROJECTS

Portfolio

HTML, CSS, JavaScript

Built a personal portfolio site to showcase my skills and project

Ticket Generator

HTML, CSS, JavaScript, Node.js, Express.js, MySQL

Built a website for users to generate ticket for an event, program or a concert.
